ANOTHER NEW BUNGALOW.

The Arizona Engineering & Con-
struction company has commenced the
erection of another new bungalow on
Morris street between Second and
Third avenue. This is the second one
to be built in that locality by that en-
gineering firm. They are also build-
ing a large warehouse on Morris street
between the railroad and it is said that
they will continue the good work and
build several more houses as fast as
time will permit. If some of the other
property holders of Mesa would do
likewise and build a bunch of houses
on their lots it would be a good in-
vestment. You can never build a town
without houses for the people to live
in, and Mesa has too few houses to
rent, it retards the growth of the city.

One of the most common ailments
that hard working people are afflicted
with is home-lick. Apply Cham-
berlain's Liniment twice a day and
massage the parts thoroughly at
each application and you will get
quick relief. For sale by All Druggists.

GOLD FIELD GETTING BUSY.

George U. Young and J. L. Lambert
were in Mesa yesterday on their way
to Goldfield. Mr. Young stopped long
enough to order supplies sent up to his
mines. There will be considerable new
work done in the Goldfield district in
the near future.

Several parties who have claims
there will begin work on the same next
month. The Mesa Mining and Milling
company have sent a bunch of men
already to commence work on their
property and work on these claims will
be pushed as rapidly as possible.
There is but little doubt but that Gold-
field will eventually be one of Arizona's
best producing mineral fields.

COMMENCED WORK ON CHURCH.

Bowen & Shumway have begun the
work of excavating for the foundation
of the new Methodist church building
and will push the work as rapidly as
possible. In the mean time services
will be held on the parsonage lawn.

NEW FIRM SPREADING OUT.

The Mesa Cold Storage and Bottling
works are gradually extending their
field of operation. They are connect-
ing up with several other business
houses in Mesa and are sending their
bottled goods to several other towns,
especially to the mining towns east of
here.

GONE TO THE COAST.

Ed Tway and family left today for
the coast where they will spend a few
weeks visiting and enjoying the ocean
breezes. Then they will come back in
the fall satisfied that Mesa has got all
the other places skinned a city block.

Mayr's Wonderful Stomach Remedy
has been used for centuries as a powerful
remedy and the benefits that it gives
in many of the most chronic cases of
Stomach Trouble has spread its fame
from one end of the country to the
other. No matter where you live—
you will find people who have suffer-
ed with Stomach, Liver and Intestinal
Ailments, etc., and have been restor-
ed to health and are loud in their
praise of this remedy. There is not a
day but what one hears of the
wonderful results obtained from this
remedy and the benefits are entirely
natural, as it acts on the source and
foundation of these ailments, re-
moving the poisonous catarrh and bile
accretions, taking out the inflammation
from the intestinal tract and assists
in rendering the same antiseptic.
Sufferers are urged to try one dose—
which alone should relieve your suffer-
ing and convince you that Mayr's
Wonderful Stomach Remedy should
restore you to good health. Put it to

No More Freckles

THIS SALVE MAKES THEM GO.

Don't let your skin be ruined by us-
ing worthless preparations that only
ruin your complexion. Remember that
your face is your birth-right. You
have just as much right to keep your
face free from freckles as you have
to keep your clothes clean. If you
have a growth of unsightly freckles
on your face, shoulders, neck, arms,
or any other part of the body you
are entitled to have them removed,
so you won't need suffer embarrass-
ment. Through all generations praises
have been bestowed upon the beauti-
ful face. Artists have depicted it,
poets have sung its virtues. Beauty
in woman is a gift divine. The
crowning beauty is the face, but alas,
not the face covered with freckles.
Let me send you something that will
banish them quickly. Send P. O.

GRADUALLY IMPROVING.

Akonan McCallach who seriously
mashed his hand some time ago is
gradually improving. The flesh is be-
ginning to grow back and the hand is
in nice condition, but it will be some
time yet before he can use it.

PREPARING FOR SCHOOL.

A force of workmen are busy clean-
ing up the school buildings and getting
them ready for the next term of school.
It is expected that there will be an
unusually large attendance this year
and new buildings will have to be ob-
tained to accommodate them.

LAWN MEETING.

There was an unusually large attend-
ance at the lawn meeting at the L. D.
S. Tabernacle Sunday night. Elder H.
Stewart was the speaker and addressed
the audience on the subject of "Jos.
Smith, a Fulfiller of Bible Prophecy."
The subject was well received and ap-
preciated by everyone.

IMPROVING HIS RANCH.

Chas. Farini of Gilbert, who is in town
yesterday, after a load of posts and
wire for making a corral on his dairy
ranch. Mr. Farini is thoroughly ac-
quainted with the dairy business and
is fitting his ranch up in the very best
manner. There are quite a number of
dairymen around Gilbert and that sec-
tion bids fair to be the dairymen of
the valley, as it is said that there will be
a large cheese factory built there this
fall.

RETURNED HOME.

F. L. Perry and wife were passen-
gers on the morning train for Tempe
yesterday morning, having spent Sun-
day visiting friends in Mesa.

HOW IS YOUR COTTON?

The cotton question is assuming
large proportions in Mesa at present,
and on every side you can hear the
question asked, "How is your cotton?"
Every man you meet is sure that he will
have the largest yield of any of his
neighbors and there is all sorts of bets
and prophecies about the yield. Not
since the cantaloupe crop first came to
this section has there been as much
interest in any one thing as there is
at present in cotton, and Mesa certainly
has got some fine cotton, but the
planters should be careful and give it
enough water during this hot weather,
otherwise they will not make a full
crop.

A FISH STORY.

Yesterday Judge Irwin received word
that the Granite Reef dam was going to
be sluiced out and he and John
Nicoll set out in their auto to gather
in the fish that are sure to be caught
on those occasions; but they were dis-
appointed, for the water was too low
and the opening of the gates was post-
poned. They had carried plenty of bait
and fishing tackle, however, and did
their best to entice some of the finny
tribe to surrender, but all to no pur-
pose, and with the exception of a few
small cats, they came home empty
handed.

GONE TO GOLD FIELD.

Jack McFarland left yesterday for
the mines at Goldfield where he will
be engaged for some time. Jack is an
experienced miner and is well ac-
quainted with the mines of that sec-
tion.

TEMPE'S BALL MAGNATE WILL MOVE TO PHOENIX

But Will Still Exercise His Jurisdic-
tion Over the Tempe Bears. His
Move an Occasion of Regret to
the Fans.

Tempe is on the verge of losing its
baseball manager. Frank Baum, for
two years the only local business-
man who has had the enterprise to
successfully manage a representative
team of the town is now changing his
interests to Phoenix where he will
engage in business starting about the
first of September. The magnate's
jurisdiction over the Tempe Bears
however will remain for the rest of
the season as it has been in the
past.

Baum has long been contemplating
a change in location, at one time he
figured on taking up a new location in
Tempe, but ultimately he has de-
cided upon Phoenix as his future
field of action. There will be in the
building formerly occupied by the
Wendell-Zumel Company at 44
West Washington Street. Work on
remodeling the building has already
been started and the manager's atten-
tion during idle hours is now being
confined wholly to this location.

All the fixtures and furnishings for
Baum's new resort have been ordered
from Chicago and are expected to
arrive in Phoenix sometime the last
of this month. Four pool tables and
a couple of billiard tables will be
the most obtainable on the market and
up-to-date as they are made, will be
included in the furnishings.

Baum's presence here to discuss the
"why" of defeat on the laurels of
victory on the day previous will be
an occasion of much regret on the
part of the fans but taken as a
whole it is considered lucky that the
city is left with a manager at all.
Baum will devote all the necessary
time to the interests of the Bears
and will be with them nightly at
practice. The same old motto is
foremost in his mind "a winning team
and state championship for Tempe."

A vast amount of ill health is due
to impaired digestion. When the
stomach fails to perform its functions
properly the whole system becomes
deranged. A few doses of Cham-
berlain's Tablets is all you need. They
will strengthen your digestion, invig-
orate your liver, and regulate your
bowels, entirely doing away with that
miserable feeling due to faulty diges-
tion. Try it. Many others have been
permanently cured—why not you?

tisement.

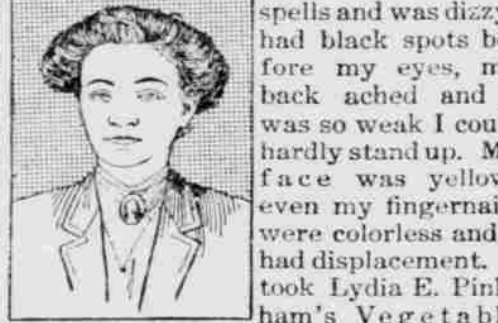

RANCH HEADQUARTERS MOVED.

Headquarters of the Mrs. Louise
Yeager ranch occupying three hun-
dred and twenty acres in section
twenty-four, ten miles south of
Tempe are now being removed from
the south to east line of the ranch.
Headquarters have been kept main-
tained in the past have given the
appearance of one of the largest ranch-
es in the Kyrene district. A large
hay shed, barn and two dwellings are
now being removed to the east line.

HOW THIS WOMAN FOUND HEALTH

Would not give Lydia E. Pink-
ham's Vegetable Compound
for All Rest of Medicine
in the World.

Utica, Ohio. "I suffered everything
from a female weakness after baby
came. I had numb
spells and was dizzy,
had black spots be-
fore my eyes, my
back ached and I
was so weak I could
hardly stand up. My
face was yellow,
even my fingernails
were colorless and I
had placement. I
took Lydia E. Pink-
ham's Vegetable
Compound and now I am stout, well and
healthy. I can do all my own work and
can walk to town and back and not get
tired. I would not give your Vegetable
Compound for all the rest of the medi-
cines in the world. I tried doctor's medi-
cines and they did me no good."—Mrs.

Another Case.

Nebo, Ill.—"I was bothered for ten
years with female troubles and the
doctors did not help me. I was so weak
and nervous that I could not do my work
and every month I had to spend a few
days in bed. I read so many letters about
Lydia E. Pinkham's Vegetable Compound
curing female troubles that I got a
bottle of it. It did me more good than
anything else I ever took and now I have
cured me. I feel better than I have for
years and tell everybody what the

HERE FROM PRESCOTT.

A. B. McQueen, a guard employed
at the local stockade since the demo-
cratic administration returned Satur-
day evening from his ten days vaca-
tion spent at Prescott. But instead
of returning to work through neces-
sity he was forced to return to
Prescott to care for an invalid sister.
He will remain in the mile high
city until the early part of Septem-
ber but whether he will resume his
work at Tempe or not after that is
still a thing to be decided.

BACK FROM THE COAST.

Mr. and Mrs. Garfield A. Goodwin
who have been enjoying a short vaca-
tion on the coast following their
marriage here the early part of the
month returned to Tempe yesterday
morning. Their time was divided be-
tween numerous points of interest in
Southern California, mainly Los An-
geles, Long Beach and Santa Monica.
Mr. Goodwin will not resume his
work as agent of the Wells-Fargo
Express Company in Tempe until
the first of the month.

"Were all medicines as meritorious
as Chamberlain's Colic, Cholera and
Diarrhoea Remedy, the world would
be much better off and the percent-
age of suffering greatly decreased,"
writes Lindsay Scott, of Tempe. Ad-
vertisement.

A NEW POOL HALL.

The first of the month will see a
new pool hall opened in Tempe, one
that will likely prove to be the most
rest and most up to date amusement
resort in Tempe. Work has already
been started on remodeling the middle
room on the lower floor of the Lin-
ington block where it will be located.
Mason Mazen, now interested in the
Tempe house, and J. A. Valenzuela,
the East Tempe merchant will run
the resort under joint partnership.
Mazen's interest in the Tempe house
reaches a terminal at the end of this
month but Valenzuela will continue
his business relations at the eastern
limits of town as usual. The new
pool hall will contain five tables, one
billiard and four pool. Should busi-
ness warrant an addition more will
be installed. Cigars and soft drinks
will be also handled in the establish-
ment.

MINE INSPECTORS RETURN.

James C. Goodman and Hugh
Daggs, the latter of Phoenix, return-
ed Saturday from a hurried trip of
inspection to the mines at Superior.
Both are heavily interested in mining
claims in that section of the country
but beyond inspecting their own
property paid a visit to the larger
mining companies operating in the
district. The trip was made in the
Daggs auto.

HEALTH SEEKERS RETURN.

An auto party composed of Walter
Wilbur, M. E. Curry, Johnny Mc-
Lain and C. C. Woolf returned late
Sunday evening from a short trip to
the Agua Caliente hot springs made
in the Wilbur Kisselcar. Members
of the party are greatly enthused
over the trip and those who made
it for the benefit of their health are
loud in their praise for the good to
be derived from a short stay at the
springs.

HIS ANNUAL VACATION.

R. Hegi, head miller at the A. J.
Peters Flour Mills here, left yester-
day morning on a visit to the Gila
Valley country. Mr. Hegi took the
Globe stage from here expecting to
spend last night in the mining town.
Today he continues his journey to his
original destination the northern part
of the Gila Valley.

REV. DAIS IS HOME.

Charles H. Dains, pastor of the
First Congregational Church of
Tempe, accompanied by Mrs. Dains
and son, Ray, returned to the valley
yesterday morning after a short visit
on the coast. Mr. Dains has a lot in
store for his congregation during the
coming winter, especially in the way
of stereopticon lectures. Upon his
arrival in Los Angeles upon leaving
here he was joined by Mrs. Dains
who has been on the coast the most
of the summer and there the family
retained headquarters. The youngest
son, Charles, will return to Tempe at
the opening of schools.

ANNUAL EASTERN TRIP.

Mrs. J. J. Hodnett, proprietress of
the Hodnett Dry Goods store here
left the last of the week on her
annual trip to the east, according to
advice from Prescott, where she has
been located a greater part of the
summer. The express purpose of the
visit is to make her fall and winter
millinery purchases for the local
store.

DAILY CONDITIONS.

AN INVESTIGATION FOR COTTON PESTS

Expert Farm Agricultural Depart-
ment Going Over Valley Fields.

W. D. Pierce of the department of
agriculture for many years in charge
of the investigation of cotton pests
is in the city having just arrived from
an inspection of the cotton fields
of the Imperial valley in company
with Dr. A. W. Morrill, state entom-
ologist, who was formerly associat-
ed with Mr. Pierce in the department
of agriculture, he visited yesterday
some of the fields in this valley.
They found nothing, Dr. Morrill said
yesterday, except such comparatively
harmless pests as they expected to
find but the fields will be watched
from year to year for the develop-
ment of more serious pests. Among
those found was the boll worm which
is similar to the ear corn worm. It
was already on the ground before
either corn or cotton was introduced
waiting for their introduction.

Today, Mr. Pierce and Dr. Morrill
will visit some wild cotton discovered
by the latter a year ago on the road
between Phoenix and Roosevelt, to
see whether any pest exists there
that might be communicated to the
nearby cotton fields of the south side.
This wild cotton is found in many
parts of the state, especially in the
canyons. It has miniature ball con-
taining no lint and in its present
state is worthless. It is possible that
by cultivation it might be developed.

into usable cotton for quite likely it
is not different from the cotton from
which the cotton of today has been
developed.

Before the advent of the white man
into this state, the Hopi Indians cul-
tivated a kind of cotton which is
now almost extinct. That probably
had its origin in the wild cotton
which is found in so many parts of
this region.

Mr. W. S. Gonsalus, a farmer liv-
ing near Fleming, Pa., says he has
used Chamberlain's Colic, Cholera
and Diarrhoea Remedy in his family
for fourteen years, and that he has
found it to be an excellent remedy,
and takes pleasure in recommending
it. For sale by all druggists.—Ad-
vertisement.

TO A CERTAIN MAID

Her eyes are of a purple hue;
Her nose is tilted snootily;
I think she breathes her wishes too;
Her hair is fixed so loosely—
Her charm in only one thing fails—
The little girl who bites her nails.
'Tis but the flaw that goes to make
Her beauty the more ravishing.
Least all the charms by some mistake
The gods on her were lavishing.
Who in her fairness Venus pales—
The little girl who bites her nails.
